

# Candidinfo Awarded the Best PHP Developer and Best PHP Web Development Company in India for April 2014

---

**Summary** –Candidinfo, one of the leading providers of premier offshore web development services, has bagged the award for the Best PHP Developer and Best PHP Web Development Company in India for the month of April 2014. This is the third consecutive month in this year that the company has been successful in retaining the award.

The awards were rolled out by BestWebDesignAgencies.com, an independent research organization that evaluates the services of the companies in web design and development. Candidinfo has more than a decade's experience in developing PHP based solutions ranging from core PHP to open source platforms. The PHP development services of the company includes customizing code igniter, integrating shopping carts, job portal development, content management solutions and designing real estate websites.

"We have more than 10 years of experience as a PHP outsourcing company and we have created several website applications on LAMP platform. If you want to choose our offshore PHP development services you can either call us or drop us an e-mail. You can also fill a request form on our website and get a no-cost quote, price and a timeline usually within 1-2 business days. We assure you of innovative, unique and relevant solutions because we are passionate about commitment," added the executive.

Candidinfo is known for its premier web designing services which includes the designing development and maintenance of websites. Apart from this it also offers other services like search engine optimization, social media marketing, SEO outsourcing, content management solutions, e-commerce solutions and staffing solutions. Some of the technologies used by the company other than PHP include [Drupal development services India](#), Cake PHP, Wordpress, Magento and so on.
